In order to determine the extent to which the service will be used and to enable the department to make preparation for prompt and efficient handling of parcels, all of the postmasters have been requested to make a report to the department answering certain questions relative to experience with it. Among the information desired by the department is the average number of fourth-class parcels now handled daily through each postoffice. The postmasters are also asked to give an estimate as to the number of parcels they expect will be mailed daily after the law becomes effective; to give an estimate of the average weight of the parcels they have received for mail delivery in the past, together with information as to the size of the packages passing through the mails.

## DELINQUENTS ARE PAYING UP

Only \$1,000 of Total Tax Roll Is Outstanding Now

Less than \$1,000 of Red Jacket's real estate and personal tax remains outstanding this afternoon, and by Tuesday evening of next week, when Treasurer Jos. G. Kahlhaas will present a statement to the village trustees, it is expected that the delinquent list will be considerably lower.

The total amount of taxes paid the village so far is approximately \$22,000. Treasurer Kahlhaas' record compares very favorably with records made by past treasurers of the village. For a time it looked as if the delinquent tax list would exceed those of previous years. It looks now as if the delinquent tax list for this village will not exceed \$500 if indications are any criterion.

### Township Taxes.

Beginning Monday morning, Township Treasurer Anton Tomasi will be at the M. & M. bank for the purpose of collecting township taxes. He will be assisted by William H. Bennett, whom he has named as his deputy. The taxes to be collected this year amount to nearly \$400,000.

that disease arises from within the body and the remedy needful to remove disease is within the body; get the remedial power into play and the cause of disease is removed. All that is necessary to keep this power to work is to keep the pressure of nerves, keep the backbone limber.

Chiropractic adjustments take pressure off nerves. For over two years I have proved the above to be a fact, borne by practice in Calumet.
